The Fire Eater!

Revelations Unplugged

by Pastor Kenneth Harris

18 September 2007

He who has an ear
let him hear
What the Spirit says to the Churches
far and near.

Disconnect the Apologetics
turn off the Hermeneutics
and you will find Christ is already here.
When you abandon systematic theology
He will appear
Stay free from these doctrines, my dear.

You'll see the kingdom of Heaven
when you stop eating their leaven.

Then Christ will become crystal clear

Pastor Harris lives in the high desert of California. Stricken with advanced diabetes and going blind he continues to speak out with poetry against an Establishment Christianity (which he terms "Churchianity") that is overburdened with form and politics in place of substance.

With the dual enemies of Islam and socialism his cautionary writings are directed at the Black Church in America but his message is universal.

Write Pastor Harris.
